

Health and Safety Policy

The National Kitchen and Bathroom Association (NKBA) is committed to providing and maintaining a safe and healthy environment for all workers, including employees and contractors, and, where applicable, participants and attendees at NKBA-run events and activities.

In accordance with the Health and Safety at Work Act 2015, we are dedicated to ensuring, so far as is reasonably practicable, the health, safety, and wellbeing of everyone involved in our operations. We are committed to safety, quality, and professionalism in everything we do.

NKBA will, so far as is reasonably practicable:

- Provide and maintain a safe environment by identifying, assessing, and managing risks and hazards using the hierarchy of controls, and by communicating these effectively to workers and, where relevant, event participants.
- Provide workers with the information, training, supervision, and equipment necessary to work safely and to participate safely in NKBA-led activities and events.
- Encourage active worker engagement, participation, and consultation, and seek feedback from event participants to support continuous improvement in health and safety outcomes.
- Clearly define and communicate health and safety responsibilities for NKBA leadership, workers, contractors, and, where relevant, expected standards of behaviour for event participants.
- Ensure all incidents, near misses, and notifiable events are reported, recorded, and investigated, and that corrective actions are implemented.
- Support injured or ill workers and, where relevant, participants to receive appropriate care and return safely to normal activities as soon as practicable.

All individuals involved in NKBA activities must take reasonable care of their own health and safety and ensure their actions do not adversely affect the safety of others.

This policy will be reviewed annually or following any significant change or event.
